REASONS FOR ALLOWANCE

The following is an examiner's statement of reasons for allowance: In view of applicant's amendments to the claims and remarks filed in the response on 02/12/2010, claims 1, and 3-6 are allowed. Additionally, the prior art of record fails to suggest, or make obvious, the claimed holding device having the claimed combination of elements defining the invention, viewed as a whole, requiring the fastening hooks being connected to the breathing mask through a length-adjustable, slack tightening strap, each fastening hook including stop elements formed in the area of the fastening hook to hold the fastening hook in hooked-in position, and sliding elements that stretch beyond the stop elements and are positioned at an offset, and a grip end that includes a recess that is molded to the fastening hook and a retainer piece is molded to the tightening strap, said retainer piece positively fits into the recess while the stop elements are molded to a free surface of the retainer piece and the sliding elements are molded to lateral edges of the recess formed in the grip end.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
